ENGLISH

## LIGHTINGS

Noora, “light” in Arabic, is a lantern for outdoor use designed by Lorenza Bozzoli. It is characterized by its elegant lampshade, featuring a laser-engraved pattern inspired by Middle Eastern tales. An eccentric handle, crafted from iroko wood, allows it to be both portable and suitable for hanging.

Noora portable lantern features a conic lampshade that comes in two distinct sizes, small (O1) and large (O2). Complementing the lampshade is an eccentric handle crafted from iroko wood. The light source consists of an external LED IP65 rainproof equipped with a remote control. Noora can be used on the ground or suspended using the dedicated suspension kits.

### Handle (1)

The handle is crafted from iroko wood treated with a water-based outdoor oil, providing

a natural finish and protection in outdoor settings. The handle's design is circular and incorporates the brand's logo, adding to its overall design appeal.

### Lampshade (2)

The lampshade of Noora has a conic shape made of laser-etched aluminium varnished for outdoor use. The lampshade is available in two finishes: metallic champagne and metallic bronze. The lantern is equipped with thermoplastic feet, to protect the lampshade from rubbing on the ground.

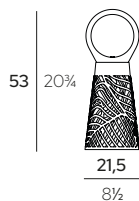

### Lighting Source (3)

Noora comes with an external LED light source IP65 certified, making it ideal for outdoor usage. The LED has a power rating of 30W and is powered by a 9900mAh lithium-ion battery, capable of providing light for approximately six hours. The remote control functionality allows to turn on and off the lantern and adjust brightness levels. The LED can be easily inserted and removed from the lantern thanks to a magnetic attachment system. The LED is chargeable via USB connection.
