FOR OUTDOOR USE ONLY

- Remove all packaging before use
- Never burn an outdoor candle indoors
- Check the surface underneath the burning candle
- Candles should always be placed on an even, heat-resistant surface
- Keep out of reach of children and pets
- Never leave a burning candle unattended or attempt to move it while lit
- It burns with a large flame and may become very hot, producing more smoke than indoor candles
- Never put candles in direct sunlight, as they may melt and/or lose their color
- Never throw objects into the melted wax
- To extinguish the candle, dip the wick into the melted wax and then straighten it again using a non-flammable stick. Never use water to extinguish the candle

REMARK

In order to prevent dirt and moss from growing on the outdoor baskets, we recommend to follow these instructions:

- The outdoor basket must be placed in dry areas, such as on a porch.
- If the basket gets wet, dry it with sunlight.

Cleaning recommendation:

- Make a solution of Soda Crystals and warm water and scrub the basket with a medium hard brush.
- Remove tough stains by making a strong solution of Soda Crystals and warm water and leave the solution on during 30 minutes before scrubbing.
- Be sure to rinse with clear water.
