Description

Named after the Italian word for "dinner," the Cena dining table is a celebration of nature's organic beauty, transforming every gathering into a moment of connection. The sinuous base echoes the intricate twists and turns of tree roots and branches, grounding the piece in the poetry of the natural world. Above, the tabletop draws inspiration from Voronoi patterns—seen in honeycombs and the markings of a giraffe for example—creating a mesmerizing interplay of structure and spontaneity. More than a dining table, Cena is a sculptural tribute to nature's artistry.

Choose between an engraved or smooth stone tabletop finish. This piece features an engraved finish.

Morpho by Tomorrowland

Morpho aspires to create a contemporary Art Nouveau collection of furniture, textures, and accessories for the home.

Morpho is created by Tomorrowland Design Studio in collaboration with architect Dieter Vander Velpen. The collection blends contemporary design with the organic spirit of Art Nouveau, shaped by nature's own geometry. It moves from the delicate structure of dragonfly wings to the curves of roots, branches, and flowing voronoi patterns.

Each piece is shaped through Belgian craftsmanship, as Ethnecraft translates Morpho's sculptural language into refined woodwork.
