Description

Aleta, meaning "little wing" in Spanish, takes inspiration from the delicate form of a dragonfly's wings—light, agile, and beautifully poised. Its refined silhouette and subtle curves evoke a sense of weightlessness, while its carefully considered proportions offer both balance and comfort. Aleta is an elevated perch, where nature's elegance meets contemporary sophistication.

This item will be available in select MORPHO stores from January 2026.

Morpho by Tomorrowland

Morpho aspires to create a contemporary Art Nouveau collection of furniture, textures, and accessories for the home.

Morpho is created by Tomorrowland Design Studio in collaboration with architect Dieter Vander Velpen. The collection blends contemporary design with the organic spirit of Art Nouveau, shaped by nature's own geometry. It moves from the delicate structure of dragonfly wings to the curves of roots, branches, and flowing voronoi patterns.

Each piece is shaped through Belgian craftsmanship, as Ethnicraft translates Morpho's sculptural language into refined woodwork.
